SUMMARY

Computer Science graduate combining hands-on IT support with cloud deployment experience. Gained practical networking, hardware and troubleshooting experience during an ICT attachment, and have since deployed and managed applications on VPS (Ubuntu/Linux) environments and Microsoft Azure. Comfortable working with relational and NoSQL databases, diagnosing issues methodically, and communicating clearly with non-technical users, both in writing and in person.

SKILLS

Operating Systems: Linux (Ubuntu), Windows

Networking: Network configuration and cabling, troubleshooting connectivity issues, general TCP/IP and DNS fundamentals

Cloud & Infrastructure: VPS deployment and server management (Ubuntu), Microsoft Azure, Docker, shell scripting for deployment tasks

Databases: MySQL, PostgreSQL, MongoDB, SQL Server, Redis

Programming: JavaScript, PHP, Go, Git

Customer-Facing: Troubleshooting for non-technical users, written and verbal technical communication, documentation and training materials, customer service

PROFESSIONAL EXPERIENCE

Freelance Web Developer, Self-employed — Jul 2026 – Present

- Deploy and manage client websites on VPS (Ubuntu) environments, handling server setup and post-launch support.
- Communicate directly with non-technical clients to diagnose and resolve issues, and produce documentation they can follow themselves.

Software Engineer (Contract), Sani Solutions — Sep 2025 – Jul 2026

- Built and deployed a learning management platform, with technical documentation and ongoing post-launch support.
- Worked with MySQL, PostgreSQL and MongoDB databases and resolved issues raised by users after deployment.

IT Support Attachee, Kenversity Sacco, ICT Department — Aug 2025 – Oct 2025

- Diagnosed and resolved hardware and software issues for staff, and carried out network configuration and cabling.
- Handled customer-facing support and reception duties, communicating clearly with non-technical users.

Software Engineer Intern, Bytecity Inc — Apr 2024 – Aug 2024

- Containerised backend services with Docker and deployed them on Microsoft Azure.
- Built REST APIs with authentication and role-based access control using Go and Next.js.

EDUCATION

Bachelor of Science in Computer Science, Kenyatta University — Sep 2021 – Dec 2025
